

# Eco Schools Action Plan for 2022!

**This year, our three main areas of focus are: Biodiversity, School Grounds and Energy. Here are some of the projects we are organising this year, revolving around these topics!**

## Biodiversity

-Wildflower Garden!!

Planning where to put this at the moment!

- Green Patches

Around the school, we are planting seeds on dirt patches to increase the amount of wildlife!

-Bird Houses!

In garden, add cameras, if any birds approach them, students can watch the footage!

-Bug Hotels!

In the garden, increase the wildlife, so students can decorate them :)

-Vegetables

We aim to plant many vegetables in the garden so they can be used by many!!

-Year 8 Playground

The Year 8's have been busy with planting seeds in the playground by the trees.

## School Grounds

-Charity Event!!!

Raise money for Wildlife Trust UK, table in the foyer, still thinking about events we could hold.

-Promotion

Get students involved more, assemblies, powerpoints in form time, maybe even a lesson or two outside ( Also, Litter Awareness Week activities)

-School Blog

Upload blogs onto the school website to let students know of any updates in the work of the Eco Ambassadors.

## Energy

-Light Saving!!

Tell teachers to turn lights off when leaving the classroom, make labels, make people aware of how to save energy, make labels for lightswitches.

-Solar Panels!!

# Eco Schools Action Plan for 2022!

Pitch to Mrs Cantle for solar panels on the school roof!
